

In God We Trust

President Obama's legal training in U.S. Constitutional Law as a former Law Professor at the University of Chicago plainly tells everyone Obama is truly a typical ideologue in the mainstream educational system level and represents the state indoctrination of all children and university students. As the White House Chief of Staff said, Obama

lives in an intellectual utopian ivory tower of education that fails to include important facts of government, political realities and relevant cultural paradigms.

American Constitutional Law is based on Case-Law, where each legal precedent, court rulings and legal opinions creates new changes in U.S. Law (based on the ancient religion of the worship of man and mere paradigms or game "Simon Says"

or "Rule by Law" stated by Caesar Augustus and the polytheism of all the gods of the Roman Pantheon).

President Obama recently said that "there are many paths to a higher power." Which is in the bonds of the guiding spirits of the Mason's "New World Order" or "New Secular Order" on President George Washington's Presidential Seal on the back of the U.S. Dollar written in Latin by George Washington's own hand. The Masons, are a parallel religion system of beliefs that all paths lead to the same "higher power."

Whereas Jesus said He WAS and IS the ONLY WAY to salvation.

President Obama's religion Obama doesn't believe he, or anyone else, will go to hell based upon the peer group acceptance of the religion of Civil Government that all men may be redeemed and made good enough to rule the USA without being "Born Again" Christians.

Without a guiding set of principles and fixed frame of legal reference of law, such as the Holy Bible (according to one's own conscience), self deceptions, and

anything imaginable will become law due to the multitude of devils and gods of the polytheism of what the nation has gradually become socially and in its culture. As Benjamin Franklin said "you have a [Roman] Republic." The Roman Republic form of government gives "freedom" to worship any and all gods, except Caesar and the government above ALL gods have priority. Today, instead of Caesar being worshipped as god, Christians are required to worship "the laws of men" instead of the laws of God. Secular Humanism is the modern name of for the

worship of man above all gods and will eventually devolve into the tyranny of ancient Rome where Christians were persecuted and murdered in a total government genocide of all Christians. Pres. Obama has the concentration camps under construction. It is only a few decades until the tyranny of the U.N. World Government forces replicates the evils recorded in history.

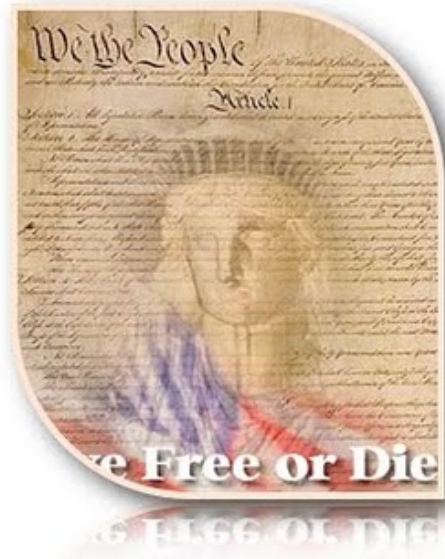

It is astonishing that it only took six years for Germany's government to fall to the NAZI's and it may be only a few years

before similar evil overwhelms the government of the United States. Amen

In fact the nation is ruled by "case law" and laws passed by Congress which are overturned in the courts have so severely changed the "living, e.g. dead, constitution" that the United States has become a Capitalocracy, Corporatocracy, and sociocracy combined in an over-arching reaching oligarchy where these special interest globalist utopians prevail in the Supreme Court and United Nations, trumping an increasingly

ungovernable form of government which is becoming a pro-forma Democracy run by the elite "powers that be." This is sometimes simplified as "judicial activism," however the future now held in the jaws of the courts and by the power of the treaties signed with the United Nations.

The United States has become a nation where idolatry of capital and international corporations ruling at any cost in society and global security and truth, justice and the facts have been marginalized so to be almost meaningless.

This general national deterioration and ruin is commanded by God who will not take "Hell NO" for an answer by anyone.

This destructive retribution for unrepentant national sin is commanded by the Law of Moses and by God where if the nation will not honor and obey God and

Jesus, then God will raise up more and more enemies and will send more and more destructions against the nation until the United States is fully destroyed as ancient Israel was fully destroyed.

God NEVER changes throughout eternity and is always the same forever and this is the spiritual reason why the general public spirit is failing so greatly. The second reason is the trillion dollar brainwashing indoctrination centers of the public school educational system.

The ACLU is only part of the "unholy fire" that lights the fuse and detonates explosive attitudes the public schools have indoctrinated in lawyers, politicians and judges, about the "Religion of Civil Government" as Pres. Thomas Jefferson said it was a religion.

This tragic mind-set and paradigms are brought about by state indoctrination of pagan religions taught in the trillion dollar educational system. Jesus said Christians were to be city on the hill, a city of light including government. For Christian

leaders such as Presidents, Pat Robertson and Christian broadcasters to oppose a Christian nation is treason or the sin of unbelief.

Israel in the wilderness was hated by God (Hebrews chapter three Holy Bible) for their sin of unbelief and opposing entering the Promised Land. God now in the same mindset hates the United States Christians for their sin of unbelief and opposing God and opposing God's Kingdom here on earth in the United States Government, in the promised land of America, which actually means

"kingdom of heaven." The Christians have trampled on the God's promise of a Christian nation here and now on earth in the United States. As a result of continuing in sin of a stubborn and unbelieving heart "There remains no more sacrifice for sin." The Doctrine of "Manifest Destiny" was God's command and not making forbidden treaties with God's enemies in the United Nations World Government.

Therefore it is not the ACLU that is primarily the problem, it is the Christian leaders who are cutting the throats of their flocks

figuratively by OPPOSING a Christian nation now by law and as a result helping God's enemies and pagans to take over the government. Pastors that are Good Shepherds need to save their flocks and seek God's Blessings upon America by working to bring Jesus back into government. Teaching their flocks to do nothing in unbelief and as result turn their flocks and children over to coming third world poverty, the destruction of their minds and souls in the public educational system and having the nightmare of their enemies ruling over them for

centuries to come in the United Nations World Government, all makes the Pastors very bad shepherds in the sight of the Holy Spirit...

Truth in law is the only valid solution and it is required to change the educational system and legal mindset of the next generation of the judicial system by the proposed

www.ChristianAmendment.com

Constitutional Amendment allowing for legal freedom of all Christian sects without government control, or favoritism according to one's own

conscience.

Without allowing the truth and facts to be taught in the public schools and without bringing required respect of God and Jesus into government, the pagan gods of Islam and the United Nations along with America's enemies will have increasing tyrannical control of the United States in a few years after the USA falls to third world economic status, due to the growing economic destruction and social upheaval of free-trade, and is powerless to stop the monster-world-government it created. It is

time for Christians to do their duty to God and country, or our enemies will control our children's lives for centuries to come... Amen

As the American Revolutionary soldiers were told "Jesus is our King and not King George." However they were betrayed when the Constitutional Convention brought in a Roman Constitutional Republic form of government of polytheism.

Freedom of religion of all pagan religions. Jesus would not have Muslims and pagans rule over Christians in Government, and given a choice, neither should Christians fail to advocate bringing King Jesus back into government by law as it is the very constitution itself and legal precedents that have exiled Jesus from government. Only by changing the law may America be a Christian nation where the nation will be blessed, or it will slowly die at the hands of the soon tyrannical United Nations World Government. Won't you please help? Save yourselves

today! Amen.

Tomb of the American Dream

Since Jesus was driven from

**Government by Laws, Jesus
expects Christians to change the
Laws to Bring King Jesus back
into government and the schools.**

Amen
